Methodology Notes:

2021-22 Baseline determinations reflect FIST referrals received with a commitment date to a DSH funded program in FY 2021-22 and referrals were received no later than 8/31/22. This methodology would be applied to IST determination counts in all subsequent years.

Adjustments to the FIST determination count include:

Program Revokes - these are FIST individuals who may have been committed to DSH and placed in a diversion or CBR program in a prior fiscal year then revoked from the program and subsequently re-referred to DSH (inpatient) on the same charge in the applicable fiscal year.

Cancelled FIST commitments/referrals to DSH include FIST individuals who were committed to DSH and either competency was restored or case was dismissed while waiting in jail prior to DSH treatment and/or re-evaluation. Cancelled FIST commitments are excluded as one of the adjustments reducing the FY 2021-22 baseline count. For FY 2022-23 and all future years, cancelled commitments will be incorporated as an adjustment and reduced from the IST determination counts

Re-Evaluated 1372 includes individuals who were re-evaluated and identified as competent prior to admission to any DSH treatment program, including EASS. Totals also include the re-evaluations performed by Los Angeles County Office of Diversion and Re-Entry (known as "off-ramps")

EASS 1372 include individuals who were found competent after enrollment in services but prior to admission to a DSH program bed in a JBCT, State Hospital, IMD/Community Inpatient Facility, CBR or Diversion

Refer to DL 23-003, Attachment C, regarding the methodology applied for the Diversion Credit.

Numbers reflected in the table are pending reconciliation and subject to change.
