Methodology Notes:

2021-22 Baseline determinations reflect FIST referrals received with a <u>commitment date to a DSH funded program</u> in FY 2021-22 and referrals were received no later than 8/31/22. This methology would be applied to IST Determination counts for all subsequent years.

Adjustments to the FIST determination count include:

Program Revokes - these are FIST individuals who may have been committed to DSH and placed in a diversion or CBR program in a prior fiscal year then revoked from the program and subsequently re-referred to DSH (inpatient) on the same charge in the applicable fiscal year.

Cancelled FIST commitments/referrals to DSH include FIST individuals who were committed to DSH and either competency was restored or case was dismissed while waiting in jail prior to DSH treatment and/or re-evaluation. Cancelled FIST commitments are excluded as one of the adjustments reducing the FY 2021-22 baseline count. For FY 2022-23 and all future years, cancelled commitments will be incorporated as an adjustment and reduced from the IST determination counts

Re-Evaluated 1372 - this category includes IST individuals who were re-evaluated by DSH's Re-Evaluation Program and identified as competent (PC 1372) prior to admission to any DSH treatment program, including Early Access and Stabilization Services (EASS). Totals also include the re-evaluations performed by Los Angeles County Office of Diversion and Re-Entry (known as "off-ramps").

EASS 1372 - This category includes IST individuals who were found competent after participation in EASS and were removed from the DSH wait list prior to admission to a DSH program bed in a JBCT, State Hospital, Community Inpatient Facility, CBR, Diversion or CONREP.

Refer to DL 23-003, Attachment C, regarding the methdology applied for the Diversion Credit.
