Methodology Notes:

FY 2021-22 Baseline determinations reflect FIST referrals received with a commitment date to a DSH funded program in FY 2021-22 and referrals were received no later than 8/31/22. This methodology would be applied to IST Determinations for all subsequent years.

Adjustments to the FIST determination count include:

Program Revokes - these are FIST individuals who may have been committed to DSH and placed in a diversion or CBR program in a prior fiscal year then revoked from the program and subsequently re-referred to DSH (inpatient) on the same charge in the applicable fiscal year.

Cancelled FIST commitments/referrals to DSH include FIST individuals who were committed to DSH and either competency was restored or case was dismissed while waiting in jail prior to DSH treatment and/or re-evaluation. Cancelled FIST commitments are excluded as one of the adjustments reducing the FY 2021-22 baseline count. For FY 2022-23 and all future years, cancelled commitments will be incorporated as an adjustment and reduced from the IST determination counts.

Re-Evaluated 1372 includes individuals who were re-evaluated by DSH's Re-Evaluation Program and identified as competent prior to admission to any DSH treatment program, including Early Access and Stabilization Services (EASS). Totals also include the re-evaluations performed by Los Angeles County Office of Diversion and Re-Entry (known as "off-ramps"). On November 28, 2025, DSH released new changes to the methodology that eliminated this offset from the baseline year and subsequent FYs beginning with the annual data for FY 2024-25.

EASS 1372 includes IST individuals who were found competent after participation in EASS services, but were removed from the DSH wait list prior to admission to a DSH program bed in a JBCT, State Hospital, Community Inpatient Facility, CBR, Diversion or CONREP.

Refer to DL 23-003, Attachment C, regarding the methodology applied for the Diversion Credit.
