A copy of all previously issued notices including Department Letter (DL) 23-003 are available on the [DSH Growth Cap Webpage](#).

DSH releases unreconciled data reports, referred to as progress reports, within sixty days following the end of each new quarter. The intent of the progress report is to provide counties with quarterly updates on how the current year trend of felony IST determinations compares to baseline trends so counties have an opportunity to take action that could result in reducing the likelihood of exceeding the IST determination cap and potential funding redirection.

Methodology Notes:

FY 2021-22 Baseline determinations reflect FIST referrals received with a commitment date to a DSH funded program in FY 2021-22 and referrals were received no later than 8/31/2023. This methodology would be applied to IST Determinations for all subsequent years.

Adjustments to the FIST determination count include:

Program Revokes - these are FIST individuals who may have been committed to DSH and placed in a diversion or CBR program in a prior fiscal year then revoked from the program and subsequently re-referred to DSH (inpatient) on the same charge in the applicable fiscal year.

Cancelled FIST commitments/referrals to DSH include FIST individuals who were committed to DSH and either competency was restored or case was dismissed while waiting in jail prior to DSH treatment and/or re-evaluation. Cancelled FIST commitments are excluded as one of the adjustments reducing the FY 2021-22 baseline count. For FY 2022-23 and all future years, cancelled commitments will be incorporated as an adjustment and reduced from the IST determination counts.

EASS 1372 includes IST individuals who were found competent after participation in EASS services, but were removed from the DSH wait list prior to admission to a DSH program bed in a JBCT, State Hospital, Community Inpatient Facility, CBR, Diversion or CONREP.

Refer to DL 23-003, Attachment C, regarding the methodology applied for the Diversion Credit.

DSH has eliminated the IST Re-evaluation count offsets to the final IST determination data for the FY 2021-22 baseline and will carry this change to all future FYs beginning with FY 2024-25 data.
